Marc,

I must admit that being from the Midwest we are not used to someone from the East Coast "Shaking" things up. But now that has all changed Thanks to You! With over 2,000 customers and employees at our party, all I could see was a huge crowd of people in your area having a BLAST shaking. I had customer after customer tell me that they want you back next year and I agree!

I can personally tell you that you absolutely helped make our evening a huge success. I also recommend you use me for a referral because you are an American Idol, and I would be happy to refer you for any event.

Sincerely,

Jerry Nystrom
